

Conversation Starters During SMART Contact

Examples of Business Items

"Timmy got an A on his spelling quiz! "

"There is a leak from our water heater...I am going to need to call someone to get it fixed. Do you have any recommendations?"

"Could you send me a copy of your W2 for taxes?"

"My mom is having knee surgery next month. Just wanted you to know."

"Hey, are you okay after the tornado? Just checking."

These questions are great to use **AFTER** contacting your spouse for business items. At the end of the conversation, simply ask about something else that can lead to conversation...

"How was your day? "

"How did your big project at work go?"

"Did the kids have fun this weekend?"

"Just wanted to check on your mom/dad/sister..."

"What fun things did you do with the kids this weekend?"
